To expand its Institute of Information Systems, the School of Management & Tourism is looking for a:

Senior Research Assistant

The role

You will:

- participate in contract work and applied research projects, technology transfer, information analysis and image processing projects at the Institute of Information Systems,
- coordinate work with external partners,
- participate in the acquisition, the drafting and the submission of projects for the Institute,
- participate in the supervision of PhD students.

Your qualifications

- Master's degree and, if possible, a PhD in Information technology.
- Strong interest in machine learning and image/signal processing.
- At least 4 years' experience in carrying out and managing IT projects.
- Excellent knowledge of medical image processing.
- Ability to develop and maintain contact with our international partners (management/supervision of contracts, prospection, development of new opportunities).
- Experience in producing scientific publications.
- Ability to work in a team, good interpersonal skills with partners and clients, flexibility.
- Desirable: Knowledge of the hospital sector or experience in the management of European projects.
- Languages: English, ability to communicate in French or German.

Work type	:	80-100 %
Location	:	Sierre
Start date	:	to be determined

For further information, please contact Henning Müller, head of the eHealth research project at the Institute of Information Systems (T: 027/606.90.36, E: henning.mueller@hevs.ch).

Please send your application **by 7 November 2014** to **HES-SO Valais-Wallis, Human Resources, Route du Rawyl 47, PO box, 1950 Sion, reference number 3011.**
