OUR OFFER

An eco-child experience in hotels. The activities will be mostly based on a fruit and vegetable garden. The children will learn more about gardening as well as nature. Older children will have the opportunity to take part in cooking classes.

SUSTAINABILITY

Our project is rooted in the 3 pillars of sustainable development and allow the hotel to implement sustainability through an entertaining service for children. The garden will be on the hotel property and its produce will be used directly in the restaurant.

WHAT'S NEW?

We propose an educational and fun service to implement sustainability in the tourism industry through children.
